OUR 2010 BEST SELLER CLOSEOUT SPECIAL - SAVE \$164.00 + FREE REAGENTS

THE EXACT CHLORINE KIT - IDEAL FOR TESTING DRINKING WATER, ENVIRONMENTAL AND POOLS & SPAS

These special meters are on closeout to make room for our latest meter, the [eXact® Chlorine Plus](#). Confirm your water is safe to drink at home! No training or special equipment required. These tests are designed for use by the professional and are fast and accurate. Yet they are so easy to run, even a child can do it! Made in the U.S.A., several patents protect the technology in each **Chlorine Meter**. One patent covers the reagent-strips which take the place of liquid and powder reagents for greater speed, safety, and convenience. The second patent covers the design of the meter itself. Unlike all other test meters on the market, the **eX-act® Chlorine Meter** features a test vial that is welded in the meter so you can never lose it, scratch it, or break it! This design increases ease of use and reliability. Additional information on the **eXact® Chlorine Meter** can be found on the manufacturer's website:

www.sensafe.com

FEATURES:

- [Cutting-edge patented meter technology and patented reagent strips!](#)
- [Directly tests Water for Chlorine levels \(2 reagent test strip bottles are included in this auction\) 100% Waterproof meter AND IT FLOATS!](#)
- [Patented technology \(for use in accordance with U.S. Patents Numbers 7333194 & 7491546\)](#)
- No color matching, the meter does it for you!
- EPA Compliant Testing Method for Free and Total Chlorine
- Incredible accuracy, range, and resolution (See data listed below)
- Built-in, permanent cell (no loose glass or plastic cells; simply fill or dip meter into water)
- Test memory (saves last 20 tests per menu)

- 0.01 ppm (mg/L) precision
- Lightweight (weighs only 6 oz with batteries installed)
- Easy-to-read LCD display
- Environmentally friendly (recyclable parts & uses 60% less reagents than 10mL sample tests)
- CE certification
- Runs using 4 AAA batteries (not include

There is no training or expertise required in order to run these tests! These tests are not hazardous and can be disposed of conveniently and easily in the trash. Most tests run by simply dipping a reagent strip in a water sample for 20 seconds, then reading the result from the meter. **It is important to understand that these are not test strips, they are reagent strips. Reagents on the strip instantly dissolve in the water sample and the water changes color.** The resulting water colors are then read by the meter. Simple. Best of all, these tests are ultra-accurate thanks to the meter's 0.01 PPM resolution!

TESTING PARAMETERS:

Free Chlorine (0.00–2.20 ppm)

Total Chlorine (0.00–2.20 ppm)

Chlorine above 2.20 ppm with the use of an easy read conversion chart Transmission Measurements for the determination of other parameters.

Each eXact Chlorine Meter comes with a Mixing Cap, Cleaning Brush, Instructions and two 100 test bottles of reagents (DPD1, DPD3) for the Chlorine tests.

**Plus a full 2 year warranty from the manufacturer!
The Best Warranty in the business!**

International Buyers - Please Note:

Import duties, taxes, and charges are **not included** in the item price or shipping cost. These charges are the buyer's responsibility.

Please check with your country's customs office to determine what these additional costs will be prior to bidding or buying.

This item ships direct from the manufacturer. Please allow up to 5 - 7 business days to ship.
