Description

REGENERATE™ Advanced Enamel Serum with its revolutionary and internationally patented NR-5 technology, regenerates tooth enamel mineral³, reversing the effects of early enamel erosion and acid attacks. The exclusive REGENERATE™ Advanced Enamel Serum significantly increases enamel hardness when used in combination with the Advanced Toothpaste, with 82%¹ recovery after 3 days. For best results, use in combination with REGENERATE™

Advanced Toothpaste, the REGENERATE™ Advanced Enamel Serum boosts the effectiveness of Regenerate Advanced Toothpaste by 43%²

Each REGENERATE Enamel Science™ Advanced Enamel Serum kit contains one NR-5™ REGENERATE™ Advanced Enamel Serum and one Activator Gel plus two custom-fit mouth trays and a mixing stick. When combined with the Activator Gel, the NR-5™ Serum unleashes a concentrated boost of the formula, helping to reverse the early enamel erosion process.

Ingredients: *Glycerin, Calcium Silicate, PEG-8, Trisodium Phosphate, Sodium Phosphate, Aqua, PEG-60, Sodium Lauryl Sulfate, Sodium Monofluorophosphate, Aroma, Hydrated Silica, Synthetic Fluorophlogopite, Sodium Saccharin, Polyacrylic Acid, Tin Oxide, Limonene, CI 77891 Activator Gel: Aqua, Glycerin, Cellulose Gum, Sodium Fluoride, Benzyl Alcohol, Ethylhexylglycerin, Phenoxyethanol, CI 42090. ¹Based on an in-vitro test measuring enamel hardness after 3 days combined use of Toothpaste and Serum.

²As demonstrated in a 3 day in-vitro test measuring enamel hardness: Combined use of Advanced Toothpaste and Boosting Serum vs Advanced Toothpaste only.

³Acts on early invisible stages of enamel erosion. Helps to regenerate enamel by restoring its mineral content and micro hardness with regular use. Clinically proven.

How To Use

REGENERATE™ Advanced Enamel Serum should be used once a month, for three consecutive days, preferably before bedtime as part of a regime. For best results, use it in combination with the daily Advanced Toothpaste.

How It Works

Nine years of research went into developing the Advanced Toothpaste. REGENERATE Enamel Science™ is powered by exclusive NR-5™ technology which unites Calcium Silicate and Sodium Phosphate these combine to form a crystal structure that is identical to Hydroxyapatite, the key mineral in dental enamel to integrate into teeth and regenerate enamel mineral¹.

The REGENERATE™ Advanced Enamel Serum kit increases the effectiveness of the Advanced toothpaste by 43%². The combination of both products is proven to recover enamel hardness by 82%³ after three days' use.

Well I was a little unsure of this product due to the mouth trays, I expected it to be so uncomfortable but I am truly amazed at the product.

Firstly the mouth trays fit perfectly and are comfortable to use and don't make you feel uncomfortable nor do they hurt.

The whole product was great and worked amazing.

ny brands before I felt I had a lot of past experience to be able to give a great review on this product and I can honestly say it's the best product on the market. My teeth feel stronger, healthier and whiter, my breath is fresher and my teeth don't feel weak like before.

I feel like I've been given a whole new set of teeth, they don't feel sensitive like before so I know it's done a great job.

I've had people ask have I had them whitened or have I had them professionally cleaned too which I thought was great for a product you use at home.

I highly recommend this product and have already recommend it to so many others who have now gone out on purchased it too.

5 star from me, fabulous product. Read Less

Really interesting to try

I have used the serum 3 times (as directed)

I love the kit you get. It comes with everything you need and the instructions are very easy to follow.

The mouthpieces are very easy to rise out when you first get them.

I really enjoyed adding the 2 substances together and mixing it with the spatula.

Made me feel like a little alchemist. ...Read More

The mouthpieces are relatively easy to insert together. I did find they were a little big for my mouth so I did do a bit of gagging. The box sates you can do the top and bottom separately so that what I did for the other two times. That worked much better for me and I found them to be very comfortable.

You really have to rinse your mouth well to get all of the serum out once you have

finished. I found the mouthpieces were a little trickier to clean once the serum coated the whole of them.

After rinsing, my mouth felt squeaky clean. The serum left a nice polished feeling. I haven't really noticed a huge difference since using it but as I stated I have only used it 3 times.

I enjoyed the product over all and loved using the toothpaste, mouthwash and serum at the same time. I very rarely spend that much time on my teeth so they felt very pampered.

I would recommend trying this as it was good fun to use and if it works as well as the toothpaste and mouthwash it will leave you with fantastic results. [Read Less](#)

I haven't been the best at taking care of my teeth as in my eyes there was nothing wrong. 3 minutes a night and my teeth feel a lot stronger. It wasn't until I started using this product I realised my enamel wasn't in the best shape it could be. My only only negative would be I am not great with different textures in my mouth but the serum is not ...[Read More](#)

Great for sensitive teeth!

I've never used anything like this before and I have definitely seen a difference. My teeth are less sensitive and I have used this alongside the toothpaste and mouthwash. Great products would definitely recommend to anyone with sensitive teeth.
